**TOPICS:** [Business/Economy](#); [Health/Medicine](#)

**KEYWORDS:** [exemptcompanies](#); [obamacare](#)

Here is a list of most of the companies that applied for and received exemptions from Obamacare. The original list was removed from the <http://cciio.cms.gov/> website.

I will not be doing business with any company that doesn't want to share in our new found prosperity. (I need that money to fund my new obligations to the government)

Let's make all the exempt companies foot the bill for our news taxes!

Someone needs to see how many of these companies gave political contributions to democrats, I mean the marxist. They are no long democrats in my mind. They are dictators.

I think any enterprising entity, say Arizona, or a private commercial entity not heretofore exempted, should sue the federal government under the 14th Amendment for abrogation of equal protection (or influence). This law is not equal among citizens.

You forgot to list the U.S. Congress and the U.S. Senate.

They are also exempt, and they passed this albatross.

There MUST BE a Constitutional Amendment that makes the Congress and Senate IMMEDIATELY subject to \*ANY\* \*AND\* \*ALL\* laws that are enacted by them and signed by the POTUS.

How can a company be exempted from a "tax"? This creates an unfair competitive advantage, and I am assuming that the employees of these companies still get to participate in the "benefits" that the rest of us get to pay for.

Notice how many of these exemptions are given to Unions and Schools (Teacher's Unions).

These companies are exempt because they filed for the exemption and were granted one mostly because they support the Democratic party and toe the line.

Cronyism.

An essential hallmark, and foundational lever to power among the venal criminality that is Marxism.

I think this whole thing is a backdoor bailout of the American Government.

Insurance companies hold most of their money in Government bonds.

US Government agrees to make every American pay those insurance companies and act as the collector through the IRS.

Insurance companies agree to put a healthy portion of their collections into US Government bonds since demand is on the decline for them through the existing market.

That makes a lot of sense. The American taxpayer is (as we always knew) the ultimate sucker in this high level criminal entprise.

Nothing has changed my mind that it is going to require a hot war to retake our country.. No, I don't think that will happen. I think we will be incrementalized into international irrelevance, while we stare into our iPhones.
