##### Company Overview

On August 28, 2013, Nordic Windpower LLC went out of business under Chapter 7 liquidation as per its bankruptcy filing. Nordic Windpower LLC develops and manufactures two-bladed wind turbines for community wind, on-site generation, and small wind farm deployment applications worldwide. It offers N1000, a light-weight one megawatt wind turbine generator; and training services. The company was founded in 2005 and is based in Kansas City, Missouri with offices in Berkeley, California. It has an engineering design and technology office in Bristol, United Kingdom; and a manufacturing location in Pocatello, Idaho.
