Average Cost Per Inpatient Day Across 50 States in 2010

Written by Jaimie Oh | April 30, 2012

Here are average costs per inpatient day, organized by hospital ownership type, in all 50 states plus the District of Columbia, according to the latest statistics from Kaiser State Health Facts.

Note: Adjusted expenses per inpatient day include expenses incurred for both inpatient and outpatient care. Inpatient days are adjusted higher to reflect an estimate of the volume of outpatient services. It is important to note that these figures are only an estimate of expenses incurred by the hospital to provide a day of inpatient care and are not a substitute for either actual charges or reimbursement for care provided.

United States

- State/local government hospitals — \$1,625
- Non-profit hospitals — \$2,025
- For-profit hospitals — \$1,629
