¹ The 2013 population figures are FBI estimates based on provisional data from the U.S. Census Bureau. (See Data Declaration.)

² The FBI does not publish arson data unless it receives data from either the agency or the state for all 6 months for 2012 and/or 2013.

³ The data collection methodology for the offense of forcible rape does not comply with national Uniform Crime Reporting Program guidelines. Consequently, their figures for forcible rape and violent crime (of which forcible rape is a part) are not included in this *Report*.

⁴ The figure shown for the 2013 rape offense was reported using the new definition of rape and is not comparable to previous years' historical forcible rape data.

NOTE: All the 2012 rape figures were reported based on the historical definition of forcible rape.

Data Declaration

Provides the methodology used in constructing this table and other pertinent information about this table.
