A former Secret Service officer who helped protect [Hillary Clinton](#) while she was in the White House charges in a new tell-all book that the former first lady had a 'volcanic' temper and occasionally got violent with her husband – and that a loud 1995 fight left the president with a black eye.

In the book, 'Crisis of Character,' former agency officer Gary Byrne, details arriving at work after a 1995 shouting-match that left a light blue vase 'smashed to bits' and Bill sporting a 'real, live, put-a-steak-on-it black eye.'

Things got so bad that Secret Service agents had discussions about the possibility they might have to protect the president from his wife's physical attacks, the [New York Post](#) reported in advance excerpts of the book.

'Everyone on post that night' couldn't help but hear the fracas, according to early chapters posted online. It describes a big argument that 'ended with a crash.'

Byrne writes that he saw the president at about 9 am after the fight.

'I was well-accustomed to his allergy-prone puffy eyes,' he writes. 'But this was a shiner, a real, live, put-a-steak-on-it black eye. I was shocked.'

Hillary Clinton is braced for an expose from a Secret Service agent who protected her during Bill's 1990s administration. She is pictured during a campaign event in California on Saturday ahead of the primary

When Byrne asked White House scheduler Nancy Herrreich about the black mark on the president's face, she replied, "Oh, uh, he's allergic to coffee,' Byrne writes she responded.

'I'm also allergic to the back of someone's hand,' Byrne says he responded.

The book casts Hillary, who is expected to lock up the Democratic nomination on Tuesday, as 'too 'erratic, uncontrollable and occasionally violent' to lead the nation, according to promotional excerpts for the book.

“Hillary Clinton is now poised to become the Democratic nominee for president of the United States, but she simply lacks the integrity and temperament to serve in the office,” writes Byrne.

“From the bottom of my soul I know this to be true. And with Hillary’s latest rise, I realize that her own leadership style — volcanic, impulsive, enabled by sycophants, and disdainful of the rules set for everyone else — hasn’t changed a bit,” he adds.

Byrne even claims he once threw out a White House towel stained with a woman's lipstick and the president's 'bodily fluids'

The book gets released June 28th, though it jumped from obscurity to No. 1 on Amazon's list of bestsellers after the Drudge Report linked to it.

A WHITE HOUSE SECRET SERVICE OFFICER  
DISCLOSES HIS FIRSTHAND EXPERIENCE WITH  
HILLARY, BILL, AND HOW THEY OPERATE

GARY J. BYRNE

FORMER PRESIDENTIAL SECRET SERVICE OFFICER

**Gary Byrne, the man behind the expose, says he was posted outside Bill Clinton's Oval Office in the 1990s and that what he saw 'sickened him'**

---

The Clinton camp dismissed the book as fantasy. 'Gary Bryne joins the ranks of Ed Klein and other "authors" in this latest in a long line of books attempting to cash in on the election cycle with their nonsense,' said campaign spokesman Nick Merrill.

'It should be put in the fantasy section of of the book store,' he added.

Former New York Times reporter Ed Klein wrote his own harsh indictment of the Clintons, called 'Unlikeable: the problem with Hillary' that detailed intimate conversations the Clinton camp says he couldn't have known about.

Former Washington Post reporter Ronald Kessler also described a fight between Bill and Hillary in his 2014 book, 'First Family Detail.'

The book titled Crisis of Character: A White House Secret Service Officer Discloses His Firsthand Experience with Hillary, Bill, and How They Operate is set to hit shelves on June 28.

The Democratic convention, where Hillary could be confirmed as the nominee, will take place a month later.

A description of the book reads: 'Posted directly outside President Clinton's Oval Office, Former Secret Service uniformed officer Gary Byrne reveals what he observed of Hillary Clinton's character and the culture inside the White House while protecting the First Family.

'Now that a second Clinton administration threatens - their scheme from the very beginning -- Byrne exposes what he saw of the real Hillary Clinton.

'While serving as a Secret Service Officer, Gary Byrne protected President Bill Clinton and the First Family in the White House and outside the Oval Office.

'There, he saw the political and personal machinations of Bill and Hillary Clinton and those who were fiercely loyal to them.

Byrne, who was one of the agents who complained about Monica Lewinsky's behavior, says he wants voters to see the 'real' Hillary before they head to the polls

---

'In CRISIS OF CHARACTER Byrne provides a firsthand account of the scandals - known and unknown - and daily trials ranging from the minor to national in scale.

'Having witnessed the personal and political dysfunction of the Clinton White House - so consumed by scandal and destroying their enemies, real and imagined - Byrne came to understand that, to the Clintons, governing was an afterthought.

'He now tells this story - before voters go to the polls - in the hopes that Clinton supporters will understand the real Hillary Clinton.'

Byrne was one of the Secret Service agents questioned by a Grand Jury about Bill's dealings with Monica Lewinsky in 1998.

According to the [Washington Post](#) article published on the hearing Byrne complained to then-White House deputy chief of staff Evelyn S. Lieberman about Lewinsky's actions in 1996.

A short time later Lewinsky was removed from her position because of 'immature and inappropriate behavior'.

He claimed that he saw Lewinsky in the West Wing of the White House when she was not authorized to be there.

[The New York Times](#) reported that Mr Byrne also expressed concerns about Ms Lewinsky's after-hours access to the West Wing, which houses the President's Oval Office and the work spaces of the most senior White House aides

Since her husband's administration ended, Secret Service agents assigned to Hillary have slammed her behavior.

In investigative journalist Ron Kessler's explosive book, *The First Family Detail*, he claims that agents saw her as one of the most detested assignments and believed her marriage to Bill was 'fake'.

It reveals how both current and former agents strongly dislike being on Mrs Clinton's detail, while also revealing how they felt about protecting Chelsea Clinton and Bill Clinton.

His expose is reportedly causing deep concern in the White House and its release comes as Hillary comes within touching distance of securing the Democratic nomination

In the book, Kessler presented Chelsea as someone who not only respected and appreciated her agents, but also was a model protectee.

The former president is described as a difficult chief executive who is also easygoing in the book.

However, Hillary is exposed as being the complete opposite of her husband and daughter, and instead is reportedly very rude and acted nasty toward a number of agents.

'Hillary was very rude to agents, and she didn't appear to like law enforcement or the military,' former Secret Service agent Lloyd Bulman recalled to Kessler.

'She wouldn't go over and meet military people or police officers, as most protectees do.

'She was just really rude to almost everybody. She'd act like she didn't want you around, like you were beneath her.'

On another occasion, a member of the uniformed Secret Service once cheerfully greeted Mrs Clinton by saying 'Good morning, ma'am.'

'F\*\*\* off,' is how she replied, according to Kessler's book.

Kessler explained in the book that when Mrs Clinton is in public, she smiles and acts graciously.

'As soon as the cameras are gone, her angry personality, nastiness, and imperiousness become evident,' he wrote.

'Hillary Clinton can make Richard Nixon look like Mahatma Gandhi.'

His book also revealed how Mrs Clinton allegedly didn't like the attire military aides wore.

'Hillary didn't like the military aides wearing their uniforms around the White House,' one former agent recounted to Kessler.

Dan Emmett, who began covering President Clinton on his first day in office in January 1993, said Hillary was arrogant, never said 'thank you' to the agents and treated them like 'hired help'.

In his 20014 book, Unlimited Access, he says Bill was a gentleman in comparison.

uld eat baby bunnies with tabasco sauce for breakfast and women are going to vote for her in droves. You can give up, sir. Nobody cares what you "saw." Frankly, I like a female president who has a good left hook and some really aggressive anger within her. Just another feather in a woman's cap, in my humble opinion. Oh, and Daily M.A.L.E., stop trying to thwart her. The party's over. Tuck your b\*lls in and suck it up, a woman is going to lead the free world. I see all of the other crap you allow to be printed. Let's see...will this comment make it through the layers of men attempting to protect male privilege in the comment section???

Classy guy. Ranks right up there with Judas, Brutus and half our low life prison snitch population. Interesting to see him comment on her failings, when he shows himself to be just another money grubbing National Enquirer style reporter. What next, 'Aliens walk among us'? Who'd ever buy this book anyway?
