This 2014 U.S. Retail Store Closings list is arranged numerically according to the number of store closings. The number in the left column is the total number of stores that have been designated for closing in 2014. This list will be updated continuously throughout 2014 as more information about U.S. retail chain store closings domestically and internationally becomes available. **The latest additions are indicated with bold lettering.** This list was last updated on January 21, 2014.
