## Data Interpreter

TRAC's Data Interpreter provides a bird's-eye view of the latest data available on proceedings in both US federal criminal and civil courts. Find out the number of prosecutions for your selection of federal agency, district, judge, program or lead charge. Or review civil filings by the nature of suit, jurisdiction, district, and office.

The Data Interpreter converts data from TRAC's Data Warehouse into easy-to-use summary reports that integrate text, tables and charts.

Latest data: **June 2015** (criminal), **undefined 2015** (civil).
