Today the FBI is releasing a summary of former Secretary of State Hillary Clinton's July 2, 2016 interview with the FBI concerning allegations that classified information was improperly stored or transmitted on a personal e-mail server she used during her tenure. We also are releasing a factual summary of the FBI's investigation into this matter. We are making these materials available to the public in the interest of transparency and in response to numerous Freedom of Information Act (FOIA) requests. Appropriate redactions have been made for classified information or other material exempt from disclosure under FOIA. Additional information related to this investigation that the FBI releases in the future will be placed on The Vault, the FBI's electronic FOIA library.
