Sen. John Kennedy unloaded on his Democratic colleagues from the Senate Floor Monday; saying the United States was “founded by geniuses” but is now being run by a “bunch of idiots.”

“You know what the American people are thinking right now? They’re thinking that this country was founded by geniuses but is being run by a bunch of idiots,” said Sen. Kennedy. “You know what they’re thinking? They’re thinking why do members of the US Senate continue to double-down on stupid?”

“This is not a Republican bill. This is a bipartisan bill. We’ve spent hours negotiating provisions with our Democratic friends. This is not a slush fund. It’s a bill to help people and businesses in America,” he added.
