The Disneyland Resort put out a statement on June 10th, 2020 to reopen the parks on July 17th, 2020. As you know, Covid-19 cases are rising and have not dropped. Many people have lost loved ones due to this pandemic and by reopening the parks they are endangering cast members and guests to be exposed to Covid-19. There are more cases now than when the parks closed on March 13th, 2020. Health Officials have stated that the 2nd wave of Covid-19 will be worse. So reopening before the 2nd wave even hits us is irresponsible and greedy. I understand everyone is rejoicing for the reopening of the parks but not during a pandemic where people are DYING, now is not the time.

On March 27th, 2020 Disney Parks released a statement, "the safety and well-being of our guests and employees remains The Walt Disney Company's top priority." The solution would be to reschedule Disneyland to reopen the parks at a later date when cases of Covid-19 drop and Health Officials state it is safer for everyone but to still practice social distancing.
